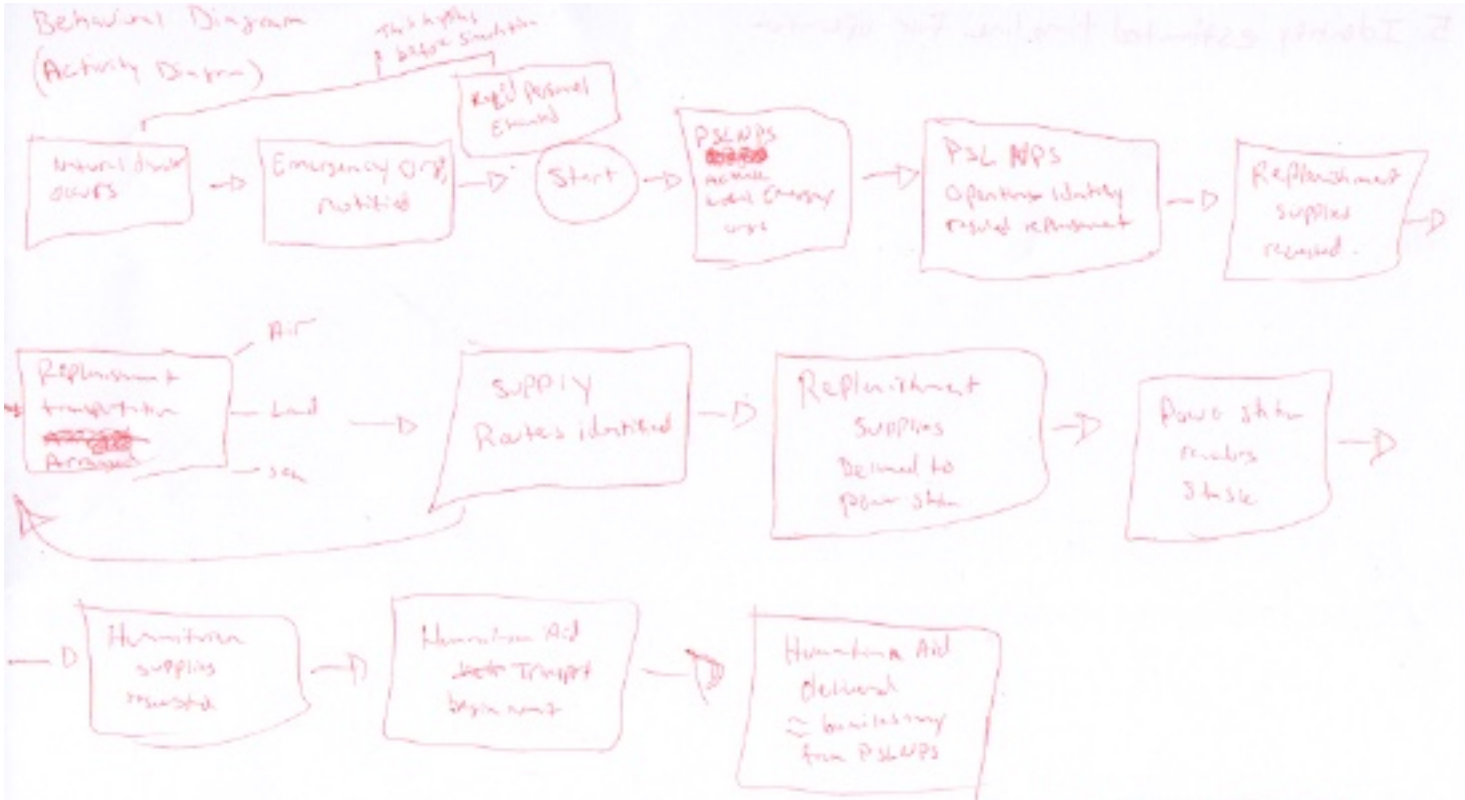
Behavioral Diagram
(Activity Diagram)



1 We need to scope this a little more to prevent a scope that is too broad. Are we focusing on ground, Air or Sea transportation or all of the above?

2. We can identify "Starter" Conditions for the purposes of the assignment & can be created when needed.

3. Replenishment happens first to "Stabilize" nuclear reactors at Power Station

4. Humanitarian Supplies delivered staged 60 miles away from Port Saint Lucie and pulled forward (if possible)
